

- Kills flies, mosquitos, gnats, moths, yellow jackets and crawling insects
- Exempt from EPA Registration
- Acceptable for use in USDA meat and poultry plants
- Acceptable for use in aircraft and aircraft cabins. Meets requirements of AMS 1450A

- Excellent for sensitive facilities such as Schools, Govt. Buildings, etc.
- May be used in residential, commercial and food handling establishments
- Non-staining and non-corrosive
- Contains no ozone depleting substances
- Fresh mint scent
- An ideal IPM tool

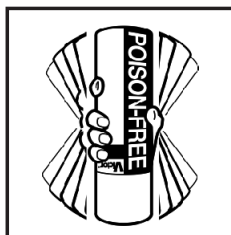

For many years, we have enjoyed the convenience of controlling insects with aerosols. But with increasing restrictions and public concern limiting the use of traditional pesticides in sensitive environments such as government facilities and schools, we use aerosols less and less...until now! Victor® PRO aerosols are comprised of a poison-free formula which kills insects...yet is safe for the environment and for use around children, pets and even plants! Instead of having a noxious pesticide odor, Victor® PRO aerosols have a fresh mint scent. Plus, they are non-staining and non-corrosive. Victor® PRO Aerosols are exempt from EPA registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Victor®...the World's Leader in Poison-Free Pest Control.
